

## Better slides, better presentations

Ever wondered how some presenters make their slides look so professional?

This workshop is for those who find they are spending a lot of time concentrating on formatting presentations to make their slides more engaging and impactful.

Attend this workshop to get practical insights & feedback, from a slide expert, in how to produce professional looking slides. And save yourself time in the future.

### How do I know I should attend this workshop?

1. Have you ever viewed other presenters' slides and wondered how they get them to look so professional?
2. Is giving engaging presentations part of your role?
3. Have you ever spent hours trying to align shapes, getting the spacing right or struggled to get smooth transformations on a slide?
4. Would you like to have a better understanding of design fundamentals as well as learning tips, tricks, and shortcuts to become a quicker and more efficient slide designer?
5. Would you like to learn from a professional who spends their days pulling together amazing slides?

If you answer yes to most of these five questions, then this workshop is for you.

### How do I prepare?

To get the most out of this workshop and to allow our industry expert to meet your needs you are asked to submit an example of a recent presentation you have prepared. **Please also bring a laptop to the session.**

### What will I do?

You will work on:

- Working with images
- Applying wise use of animation
- Presenting data
- Time saving quick tips
- Exploring cool stuff

### What are the outcomes?

By the end of this workshop, you will have:

- Gained a better understanding of design fundamentals
- Learned tips, tricks, and shortcuts to become a quicker and more efficient slide designer
- Applied your learning to a presentation
